DATE OF INFO

SUPPLEMENT TO
REPORT NO.

25X1X

1. Two Soviet army corps (see comments) are presently located in Estonia, Latvia, and Lithuania. The total number of officers and men of the regular Army and of the WD forces there is in excess of 110,000. A strong line of fortifications runs from Narva via Lake Peipus to the Dvina River.
2. Small Soviet units have recently arrived in Pskov, Vitebsk, Minsk, and Dzerzhinsk (59°41'N, 27°02'E). Other small units have moved to the islands of Hiiumaa (Dago) and Saaremaa (Osel), where thousands of prisoners of war are building fortifications at the naval bases for surface ships and submarines. All the submarine bases are underground. On those islands there are also seven large factories making V-bombs. Near Baltiski (Pillau) there are launching sites for rocket bombs, including V-2s.
3. On 5 March 1948, ships from Kronstadt planted mines between Haapsalu (58°56'N, 23°32'E) and the neighboring islands. More than 30 submarines continually maneuver in the Gulf of Riga.

25X1A

ences in the second report are as follows:

para. 1 "Two Soviet armies" instead of "two Soviet army corps"

para. 2 The second report gives only one launching site near Baltiisk and omits any mention of V-bombs but speaks of seven "underground" factories.

para. 3 The second report does not state the number of submarines.

25X1A

Comment: "Two armies" is probably correct. The strength estimate for the Baltic MD for January 1948 was 150,000 Army and 25,000 security troops. A previous report, dated 20 February 1948, indicated that there was considerable activity under close guard on the islands of Hiiumaa and Saaremaa.

CONFIDENTIAL

CLASSIFICATION

~~SECRET CONTROL - U.S. OFFICIALS ONLY~~

[illegible]

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
